The issues in the campaign have been of the local traction systems. Both parties agreed that present conditions are intolerable, but differed as to the best method of revising them. Democratic party, headed by Mayor Dunne, stood for immediate municipal Dunne, stood for immediate municipal ownership through condemnation of the street car properties, if the result could not be obtained in any other way. The Republican party favors ordinances which were rescently passed by a Democratic City Council over the veto of Mayor Dunne, These ordinances provide for twenty-year franchises for the street car companies, the city retaining the right to purchase the system for \$50,000,000, plus the amount to be spent for immediate rehabilitation of the lines; six months' notice being necessary of the city's intention to acquire the property. The ordinances also provide for universal transfers throughout the city, a five-cent fare and 5 p r cent. of the net profits of the companies to be paid to the city. These ordinances were approved to-day by a majority of about 40,000.

Reversal of Public Opinion.

Reversal of Public Opinion.

Reversal of Public Opinion.

The vote generally showed a decided reversal of public opinion on municipal ownership, compared with the mayoralty campaign two years ago. At that time Dunne received 163,139 votes, against 138,671 for John M. Harlan, the Republican leader. This year the Republican vote was close to 165,000 and that of the Democrats close to 118,000. The Prohibition vote ran slightly above that of two years ago, while the Socialist vote fell off heavily, it being more than 12,000 less.

The campaign has been one of the most victous the city has ever known. Charges and counter-charges have been hurled, the personal lives of the candidates have been discussed, and speakers on both sides have lindulged in tirades filled with invectives and abuse.

Traced by Blood Spots.

Mr. William C. Bentley, who lives at No. 795 East Franklin Street, at once 'phoned to the Second Police Station, and in a few minutes Policeman Bradley was on the seene and several bicycle officers were scouling the relighborhood.

The gouple were traced by the blood spots to the residence of Mrs. C. W. Robinson, at Sixth and Franklin Streets. Captain Barfoot, Sergeant McMahon and Chief Werner arrived within a few minutes and found the young man endeavoring to stop the flow of blood from his wounded hand. Mrs. Robinson, who was a friend of the young lady, was not at home, but the gentlemen of the house and the servants were doing everything to make Mr. Brainard comfortable.

Under questioning of Chief Worner, Mr. Brainard said that he and the young lady were on their way to the theatre, but decided not to go and turned homeward. It developed in the examination that Mr. Brainard had applied to Chief Worner yesterday morning for a permit to carry a revolver. The chief referred him to Judge Witt, who later in the day is sued the permit. From Mr. Brainard's statement it appears that some time ago he had an altereation with a negro, and threatening letter from the man. On the strength of this letter the permit was granted, and it was evident last night that Mr. Brainard was in fear of serious injury.

day morning.

There will be a brief public session of the commission to-morrow to hear a final witness, an allenist, offered by District Attorney Jorome, and then will follow a private mental and physical examination of the defendant. It was stated to-night that only the members of the commission and the official stenographer would be present at Thaw's last ordeal, both attorneys for the defense and the district attorney being barred.

Have Private Examination.

The announcement that the commission desired to renew its private examination of Thew came at the end of a day of many witnesses, and was in the nature of a complete surprise. The decision was probably due to the conflicting charafor of the testimony heard to-day. It was another battle of allonists with those engaged by the district attorney declaring Thaw to be absolutely incapable of understanding his own condition, of realizing the nature of the charge against him or of rationally conferring with counsel, while those engaged by the defense declared that Thaw throughout the trial had acted in a rational manner, had rationally advised his counsel in their hearing, and fully understood and appreciated everything connected with his case and trial.

The experts for the prosecution admitted that they had reached their conclusions as to Thaw's present state of mental unsoundness from distant observations of him in the courtroom writings alleged to have from writings alleged to have him during the trial.

Among the latter were twenty-four press of newspaper clipings and memoranda written by Thaw as suggestions to his chief attorney, Delphin M. Delmas, for his summing up address to the jury. Mr. Jerome's experts declared these writings, introduced before the commission by the defendant's

McRoberts states that he had know it Lille Davis from childhood, and that he had never known anything deregatory to her character. The commission decided to-day to admit the much-discussed testimony of Dr. Alian McLane Hamilton, who stated that he made four examinations of Harry Thaw, the last in July 1906. He came to the conclusion at that time that Thaw was sucering from chronic delusional insanity or paranola, and still held to that belief. On cross-examination, Dr. Hamilton admitted he had not examined tile defendant recently. The defendant's counsel fought against Dr. Tamilton's testimony to the very last, Falling in the plea of professional privilege as a bar, they argued that his examinations of the defendant were too remote to be of any value at this time. The commission decided to allow the testimony.

Members of the commission cross-examined several of the district attorney's alienists at length, inquiring as to the consistency of their testimony now that Thaw is insane and has been so for several years, as against their testimony at the trial when in answer to a hypothetical question they declared Thaw knew the nature and quality of his act when he shot and kfiled Stanford White, and knew that the act was wrong. Dr. Austin Filmt declared that Thaw was insane from the alterist's point of view when the homicled occurred, but was not insane in the language of the law. Mr. Jerome's exports, one after another, agreed that Thaw is a paranolae and that his case is facurable.

Dr. Filmt gave a new touch to the form of insanity from which it is alleged Thaw is suffering by declaring that his former paranolacal delusions of persecution are rapidly changing ino "delusions of grandeur." BY WAITER EDWARD HARRIS.

Harriman, the railroad wizard, finance the Republican cam-paign of 1904, which resulted in land-ing Theodore Rooseveit in the presi-dency for another term by a popular majority greater than any ever ob-tained by any candidate in the world? Mr. Harriman says he did.

tained by any candidate in the world?

Mr. Harriman says he did.

Mr. Roosevolt, in a statement issued this afternoon, says the declaration of Mr. Harriman is a "wilful and deliberate"— but the public knows the rest, so often has are President employed the term since he has been in the White House.

CORTELIOU WON'T SAY.

Secretary Cortelyou ought to know whether Mr. Harriman tells the bruth. Mr. Cortelyou was chairman of the Republican National Committee in 1904. Mr. Harriman says the money went to him. Mr. Cortelyou won't say. He was asked the direct question this afternoon. He shook his head, declining to utter a word in reply. Mr. Harriman charges that he head, declining to deter a what he undertook to raise the \$200,006 needed to "swing" New York, at the request of Mr. Roosevelt the White House. Mr. Hai

The allowers for the defense in President of the United States, al-President of the United States, al-though it may be possible that Mr. Webster did not know Harriman lied in the letter addressed to the former.

But not the least shocking feature of the entire matter, so far as the general public is concerned is the statement made by President Roosevelt this afternoon that he was on terms with Mr. Harriman during the campaign of 1904, and within a month was denouncing him and his class as enemies to society. MOST SENSATIONAL ATTACK,

The attack upon Mr. Roosevelt was the most sensational made upon any President in the memory of men now living. That Mr. Harriman under-took at his request to raise the enormous sum with which to carry New York for the Republicans in 1904, Mr. Roosevelt denies. He does not Mr. Roosevelt denies. He does not deny that Harriman did raise the cor-ruption fund. Mr. Cortelyou does not deny it. Treasurer Bliss, of the Republican National Committee, does not deny it. George W. Perkins has been com-

pelled to pay back the \$50,000 insurance policyholders' money gave to the Republican campaign fund, probably to the very fund Mr. Harriman says he squeezed out of Wall Street.

Few doubt that other contribu-tions of insurance money just as large were made, but others have not made restitution, Judge Parker charged that the

great corporations were contributing the money to elect President Roose-velt. Mr. Roosevelt denied it, and Mr. Parker did not come back with the proofs. His failure to do so cost him probably a million votes. The proof came too late, but it is coming all the time. The one great question.
